# COFFEE

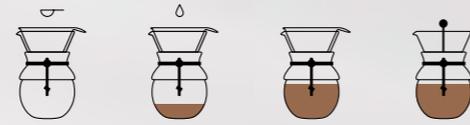

## Coffee Brewing Methods

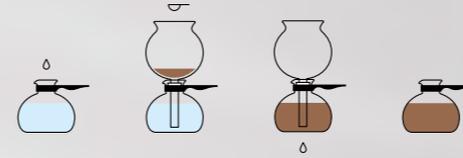

### FRENCH PRESS

The French Press is the simplest of all brewing systems, where coarsely ground beans meet hot water right off the boil. The right temperature (92–96°C, 195–205°F) brings the optimal extraction power for the essential oils in the beans to develop their full flavor profile in just four minutes. An easy press on the plunger locks the grinds at the bottom of the glass carafe and stops the brewing process.

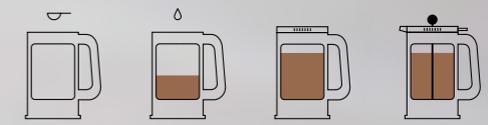

### POUR OVER

The Pour Over brew method features a fine mesh stainless steel filter that eliminates need for paper filters. Paper filters actually absorb the coffee's essential oils hence robbing coffee of true flavor, plus no paper filter means no waste!

### VACUUM/SIPHON

The vacuum/siphon brew method has fascinated generations of coffee drinkers with its theatrical technique. Water heats in the lower chamber, creating vapor pressure that forces the boiling water up to mix with coffee grounds. The coffee maker is then removed from the heat and vacuum pressure draws the brewed coffee downward through a strainer, and into the bottom chamber for serving.

### COLD BREW

Quality cold brewed coffee can be made using essentially the same French Press steps. Instead of hot water, add filtered water at room temperature and stir. Place the lid on the carafe and let brew for 12–24 hours at room temperature or in your refrigerator.

# Vacuum / Syphon

The vacuum brewing method has long been known to deliver an abundance of taste through sheer simplicity and pure materials like borosilicate glass. Its exceptionally effective vacuum brewing method extracts all precious oils of your favorite coffee. The vacuum brewing process is entirely sealed off so no aroma can escape. In addition, the brewing time and temperature are perfectly calibrated, ensuring a perfect cup of coffee with each brew.

# PEBO<sup>®</sup>

## VACUUM COFFEE MAKER

Eye-catching, quick, and easy to use — this is PEBO's Coffee Maker. You can control everything from the beginning: from pouring the coffee to the water's heating — thanks to its two firmly attached borosilicate glass bowls. This coffee maker has it all under control. The main star is its vacuum brewing method, the one extracting all of your coffee's precious oils. Needless to say that the brewing process is sealed, preventing any aroma from escaping.

bodum®

# TEA

**bodum**<sup>®</sup>

# Tea Press

The Tea Press utilizes the same brewing system as the French Press to allow for full control of the tea steeping process.

## TEA PRESS

With this unique system your tea is brewed precisely to your desired strength and aroma. Once your preferred coloring and strength is reached, you simply press down the plunger and seal the tea leaves into the bottom part of the filter that has no holes. This makes the brewing process stop with one easy push and you can discard or re-use the tea leaves after you have enjoyed your beverage.

*We developed the Tea Press in collaboration with the English Tea Council over 30 years ago and we've been perfecting it ever since.*

## NOTE

All loose leaf teas are suitable for the BODUM<sup>®</sup> Tea Press. The Tea Press works best with fruit teas and black tea because it interrupts the brewing process – avoiding bitterness.

# ASSAM

## TEA PRESS WITH S/S FILTER AND LID

The ASSAM Tea Press is the icon among the wide variety of BODUM® Tea Presses. Its classic round shape and borosilicate glass let all teas shine in their best light. Contrary to non-transparent pots, the glass pot allows the distinct color palates to be viewed.

### MATERIALS

Borosilicate glass, Plastic, Rubber, Silicone, Stainless steel (S/S)

**bodum**<sup>®</sup>

# Teapot

Tea leaves can be left to swirl freely in the infuser to develop their full flavor, and can be left to brew without interruption.

## INFUSER

The filter, along with the tea leaves, can be removed at any time to stop the brewing process and can even be used a second time to re-infuse quality loose leaf tea. The highest quality green tea, for example, can be reused up to four times.

## CHAMBORD®

### TEAPOT WITH STAINLESS STEEL FILTER

Time for tea? Whether craving your morning cuppa, enjoying an afternoon tea break or savoring a soothing infusion before bedtime, the CHAMBORD® glass Teapot with infuser will bring out the best of your tealeaves.

## GADGET LINE

They are the most basic of kitchen tools, and still – a lot of households don't get them right or don't get the right ones. With our BISTRO Gadget Line you can move in anywhere, and you're ready to go with your starter kitchen. They make your life easier and are a solid foundation to build onto. Pancakes don't fall off and onto the kitchen floor when you have a wide enough turner, penne are not watery when served with the pasta server, and whipping cream actually deserves its name when you use the right whisk. And how about a can opener that cuts through metal like butter, and a pizza wheel that makes sharing easy? Our BISTRO Gadget Line includes a whole range of fabulous kitchen helpers. These perfect kitchen gadgets are made of stainless steel, nylon, rubber, plastic and silicone. What they have in common: they are safe for your pans and your hands – nylon and silicone protect your pans, and the thick silicone and rubber coating give the handles of these gadgets that extra grip that makes them slip-proof. The line comes in a variety of fun colors that brighten your kitchen.

# DRINKWARE

# Double wall glasses

BODUM® premiered its line of double wall glasses in 2004. The inventive design coupled with timeless style made these glasses an instant classic. Over the past years the collection has earned numerous awards and expanded to include a variety of styles & sizes.

Made of heat-resistant borosilicate glass and individually mouth-blown by expert artisans, the double wall construction creates a highly effective layer of insulation. Hot drinks stay hot longer while the glass remains cool to the touch, and cold drinks stay cold without producing messy condensation. The result is endless serving possibilities. The patent pending hydrophobic silicone vent at the bottom of each glass equalizes pressure within the walls of the glass with the outside air pressure. The glass will self-adjust to any temperature liquid, and the vent is only permeable to air, not water, so whether your beverage is hot or cold it will never allow fluids into the interior of the glass layers.

The BODUM® Double Wall Glasses have won the following awards:

# PAVINA<sup>®</sup>

## DOUBLE WALL GLASSES

These award-winning tumblers aren't just a pretty face; they're really clever too! Individually mouth-blown from heat-resistant borosilicate glass, our PAVINA<sup>®</sup> Double Wall Glasses have a thermal quality that keeps hot drinks hot and cold drinks cold. There's a silicone vent at the base of the glass that equalises the air pressure between the two glass layers when hot or cold liquids are added.

### MATERIALS

Borosilicate glass

## ETTORE

### EGG BOILER

Introducing the new Bodum® ETTORE Egg Boiler, the perfect kitchen accessory for busy mornings, meal prepping or for your healthy snacking. Say goodbye to the hassle of boiling eggs on the stovetop! Easy to use, it ensures perfectly cooked eggs every time with its dual functionality: boiling and keep warm modes.

The boil mode will cook the eggs, and it is equipped with visual and audible feedback to prevent overcooking. You can choose between soft, medium or hard-boiled eggs and always have them perfectly cooked each time.

**12404-01**

Egg Boiler  
400 W

#### MAIN FEATURES

Cooks up to 7 eggs.  
Easy to choose between soft, medium or hard-boiled eggs.  
2 functions in 1: boil and keep warm.

sweetness & Fruity undertones

SUSTAINABLE, ETHICALLY SOURCED AND ROASTED BY BODUM ROASTING, DENMARK

## ESPRESSO

### ETHIOPIA & BRAZIL

A nod to classic Italian espresso, this robust blend delivers a delicious caffeine shot to energize you. We've sourced beans from Ethiopia and Brazil, working with partners committed to sustainability. Carefully chosen and blended for a distinctive flavor profile, the beans are deeply roasted for a classic Italian espresso taste. The result is an intense, full-bodied, sweet espresso with dark chocolate notes, smoothness, and excellent crema. Perfect as a simple espresso, it also serves as an ideal base for cappuccinos or lattes.

#### TASTING NOTES

Deeply roasted and highly aromatic, this full-bodied blend has dark chocolate notes and a smooth, lingering finish.

250g - 1/2 lb - 8.8 fl oz

## GUATEMALA

### COCOLÁ GRANDE, HUEHUETENANGO

With its nutrient-rich volcanic soil and mild subtropical climate, Guatemala is among the world's top coffee producers, with each of its coffee-growing regions offering distinct character and flavor profiles. This single-origin coffee comes from Finca San Jeronimo Miramar, a regenerative farm that incorporates all the outputs from the farm to make their organic compost that later gets re-introduced to the soil of the coffee farm. In our eyes, this is a true coffee forest ecosystem. Third generation brother and sister Giorgio and Gina Bressani, have made their coffee plantation one of the most exemplary models of regenerative farming in the industry.

#### TASTING NOTES

A smooth, balanced cup with notes of dark chocolate and nuts, and a light citric acidity.

#### ROASTING LEVEL

3 of 5

#### ORIGIN

Atitlán

ZS55017-250

250g - 1/2 lb - 8.8 fl oz

## BODUM'S BEST

### COLOMBIA & BRAZIL

BODUM's BEST is a blend of two amazing coffees: Colombia and Brazil. Our Colombian coffee is rich and balanced while the Brazil is sweet and full bodied, making this coffee your perfect everyday cup. Huila-Colombia is a coffee made possible by Durley Sanchez, a coffee producer growing coffee on 5 hectares, strictly of pink bourbon coffee variety. Then we have Veloso, a natural processed coffee from Minas Gerais, Brazil. It's the perfect collection of beans from a region that fulfil the quality standards that we search for in a Brazilian coffee. This BODUM's BEST combination will leave a memorable impression on your taste buds!

#### TASTING NOTES

This coffee offers rich notes of honey roasted nuts with a brown sugar flavor, balanced with a smooth finish.

#### ROASTING LEVEL

4 of 5

#### ORIGIN

Colombia; Brazil

#### PROCESS

Washed & Natural

#### ALTITUDE

500-1600 m.a.s.l.

ZS55019-250

250g - 1/2 lb - 8.8 fl oz

## SUGARCANE DECAF

### EAST AFRICA & CENTRAL AMERICA

For all the delicious taste of freshly roasted coffee with none of the caffeine, look no further than Bodum's Sugarcane Decaf. Made possible by Sucafina's vertically integrated supply chain, these beans from Colombia deliver all the flavor, body and aroma you would expect from coffee, minus the jittery after-effects! Sugarcane decaffeination utilizes a naturally occurring compound, ethyl acetate (EA) to decaffeinate coffee. The coffee beans are moistened with water and EA is circulated throughout. The EA binds with the caffeine in the bean and extracts the caffeine while leaving most of the other flavor compounds. Whether you're sensitive to caffeine or just need a break from it, this wonderfully rich, chocolately coffee is guaranteed to wake up your taste buds – without keeping you awake all night long!

#### TASTING NOTES

A rich, full-bodied coffee with hints of chocolate, resulting in a deliciously flavorful cup with a smooth finish and no caffeine.

#### ROASTING LEVEL

4 of 5

#### ORIGIN

Colombia

#### PROCESS

Washed, decaf

## COLD BREW

### GUATEMALA, BRAZIL & ETHIOPIA

For a cool, refreshing drink on a sultry summer day, reach for BODUM® Cold Brew. This blend combines Guatemalan beans for sweetness and chocolate notes, Brazilian beans for nuttiness, and a hint of fruit from Ethiopian coffee. These ethically sourced beans have been roasted and blended for optimal cold brew extraction. The end result is a well-balanced, flavorsome brew that's smooth, sweet, and oh-so refreshing. Perfect for summertime, it's delicious over ice, with milk or non-dairy alternatives, or as a base for cocktails. Keep a jug in the fridge for busy mornings, lazy afternoons, and social evenings.

#### TASTING NOTES

A rich, well-balanced blend with notes of chocolate, nuts and juicy fruit, and a smooth, sweet finish.

#### ROASTING LEVEL

4 of 5

250g - 1/2 lb - 8.8 fl oz

## DUTRA, BRAZIL

### MATAS DE MINAS, BRAZIL

This single-origin coffee hits all the traditional rich and creamy Brazilian notes, but in true BODUM® style, we sought out small-scale producers. Our search led us to Fazendas Dutra, a family-run farm in Matas de Minas. Passionate about sustainability and specialty grade coffee, they cultivate coffee harmoniously with the environment, using hand-harvesting, solar energy, and eucalyptus trees for drying. This artisanal process yields some of Brazil's best coffee. Expect chocolaty notes, a lingering aftertaste of vanilla, caramel, milk chocolate, and a soft, buttery mouthfeel.

#### TASTING NOTES

Smooth and creamy with notes of milk chocolate, caramel and vanilla, and a buttery mouthfeel.

# AQUIARES, COSTA RICA

## TURRIALBA, COSTA RICA

Hailing from one of Costa Rica’s most historic coffee farms, this single-origin Caturra offers a cup of pure deliciousness. Rich cacao-like aromas with nutty undertones and bold caramelized notes create a well-balanced cup with delicate citric acidity. Complex and flavorful, each sip blends cacao with caramel sweetness and a hint of fruity raisins, resulting in a smooth, satisfying finish. Located on the fertile slopes of the Turrialba Volcano, Aquiares Estate dedicates 80% to high-quality coffee and 20% to conservation, achieving carbon neutrality and Rainforest Alliance certification since 2003.

### TASTING NOTES

A rich blend of dark chocolate with caramel sweetness, delicate fruity undertones, and a silky, lingering finish.
